

WEBSITE POP-UP:

This website uses cookies: by browsing this website, you are consenting to our cookie usage policy [find out more](#) [close](#)

(by clicking on 'close', you are tacitly consenting to our cookie policy. By clicking on 'find out more', you will be forwarded to the webpage that provides further details)

OUR COOKIE POLICY

Cookies are small text files sent to your computer terminal (desktop, tablet, smartphone, notebook, etc.) by the websites you visit, where they are stored and then sent back to those same websites at your subsequent visit. Cookies are used to carry out IT authentication procedures, monitor sessions and record website information (if we didn't use 'essential' cookies, some operations would be very complicated or impossible to carry out). While browsing a website, you may also receive cookies sent from other websites or servers (known as 'third-party cookies') where certain features (such as images, maps, sounds, particular links to other domains) are on the website you are visiting.

Our website uses ESSENTIAL cookies. These cookies make it easier to use the website and access information, simplifying the connection and transmission of data between the website and the user.

More specifically, we use:

- persistent cookies and session cookies: these allow you to browse and use a website normally, for example, by saving information regarding your visit to a website.

THIRD PARTY ANALYTICS COOKIES

We use Google Analytics (GA) cookies to collect information about how people use our website. These cookies, which can be handled together with essential cookies, are treated as a single body of information to monitor which parts of the website are visited most, to improve website content, make it easier for visitors to use the website and check that the website is working properly. The GA cookies used are set by a website other than the one you are visiting. This is because there can be features on each website (images, maps, sounds, particular links to web pages from other domains, etc.) that are found on a different server from the one used by the website being visited. We allow third parties to use GA cookies on our website in order to save information (stored anonymously) that helps prepare reports concerning website navigation.

Cookies and browser settings

You can authorise, limit or block cookies by changing your browser settings. However, if you choose settings that block essential cookies, some website services may not display correctly or may not work properly.

You'll find details about how to disable cookies on your browser in this section. If your browser is not in the list below, please check the instructions regarding cookie management on your browser.

Internet Explorer version 6 or above

- Click the Tools button in your browser's menu bar
- Click on 'Internet options'
- Click the Privacy tab and then click on 'Advanced'
- Select 'Override automatic cookie handling'

- Disable First-party Cookies by selecting 'Block'
- Disable Third-party Cookies by selecting 'Block' • Disable session cookies by deselecting 'Always allow session cookies'
- Click on 'OK'

Firefox version 9 or above

- Select 'Tools' in your browser's menu bar
- Select 'Preferences'
- Go to the Privacy panel
- In the History section, choose 'Use custom settings for history' from the drop-down menu • Disable cookies by deselecting 'Accept cookies from sites'
- Click on 'OK'

Google Chrome version 24 or above

- Click on the Menu button to the right of the website address bar
- Select 'Settings'
- Select 'Show advanced settings'
- In the Privacy section, click on 'Content settings'
- Disable all cookies by selecting 'Block sites from setting any data' and 'Block third-party cookies and site data'
- Click on 'Done'
